HOSTA

‘THE CLASSIC SHADE PLANT’

Valuable additions to any landscape, Hosta are as popular as they are attractive from spring until frost with handsome foliage and flowers. Hosta can be used as groundcovers, specimen plants, background plants or as a border. Low maintenance, reliable winter hardiness, and spectacular displays make these species a “must have” in your home landscape. Hosta are versatile and can be grown in areas that receive sun or shade, but they are the happiest in partial sun or shady areas. Flowering for most varieties occurs during July and August. The following list is varieties, heights and flower colors of most varieties available at Meadow View. Start your collection now!

Small = 6-12” Medium = 12-24” Large = 24-36”

VARIETY	SIZE	FLOWER COLOR	FEATURES
