CHRISTMAS CACTUS CARE

- *Keep soil moderately moist, allow to dry down between thorough waterings
- *Fertilize with water soluble fertilizer every other watering during the growing season
- *Does well in front of a cool, bright window
- *Can move outdoors in summer (Bring in before frost in Fall)
- *Flowering results from short days during October & November or from cool temperatures
- *Before blossoming, maintain night temperatures between 55-60 degrees
- *Once buds set, 65-70 degrees
